

EVENTYS™

Tender specification

always the best climate

- **EVENTYS™, self-regulating air handling unit with heating device** (electrical or water coil) and **temperature control**.
- The range is **EUROVENT N°21.03.72** certified (**L1(M) [-400Pa]/D2/T3/TB3/F9**).
- Optimal and automatic management via **control communicating system** in RS485 (Modbus RTU or BACnet MS/TP) or in TCP/IP (Modbus TCP or BACnet IP).
- Self-supporting structure, **exterior RAL 9007 coated steel with protective film and a high density 50mm MO mineral wool insulation** (60kg/m³).
- **Plug fan and double inlet centrifugal fan**, depends on models. Direct drive **EC motor** compliant with ErP2018.
- Integrated proximity switch on lock panels allowing access to EASY control.
- Equipped with **dual seal round spigot** to guarantee network sealing (complaint with French CSTB ATEX n°13-224-V2).
- Fan unit mounted on **anti-vibration pads** and flexible connection from the fan to the air supply panel.
- **Integrated roof** device for indoor or outdoor installation.
